NOVELTIES FOR 1930

Sweet Pea

(Fluffy Ruffles)

A LOVELY RICH ROSE PINK, a gleam of soft salmon, and a bright creamy undertone blend into a harmonious cream pink shade of exquisite beauty. Fluffy Ruffles is a great big flower, vigorous and free blooming—blossoms are duplexed and frilled. It exhibits a most consistent doubling and ruffling of the petals. Twelve sprays make a more massive bunch than 18 sprays of the ordinary Sweet Pea. It is truly a flower of superb texture and sweet fragrance. Every lover of sweet peas should have "Fluffy Ruffles." Packet, 20c; $\frac{1}{2}$ oz., 50c; 1 oz., 75c.

GAILLARDIA (The Dazzler)

We offer here a reselected strain of a giant perennial Gaillardia, which is now becoming very popular. The flowers are very large, of dark, rich red with a bright orange tip on the end of each petal, making it a very attractive flower for florists and for table decoration. This strain has been selected for the length and strength of the stems and we highly recommend this. By far the largest and most attractive Giant Red Gaillardia on the market today. Pkt. 15c.

CALENDULA BALLS, GOLD

The best of the new calendulas. Color, a dark golden yellow. Produces large blooms and is excellent for cutting. Packet, 15c.

PHLOX—DRUMMONDI IMPROVED

Two new colors of this old garden favorite. Will bloom profusely and uniformly. Makes one of the most satisfactory of all summer flowering annuals.

PRIMROSE—Per packet, 15c; 2 packets, 25c.

VIOLET—Per packet, 15c; 2 for 25c.

PANSY
HENRI METTE'S
TRIUMPH OF THE
GIANTS

(Original Strain)
Unquestionably the grandest pansy ever produced. The plants distinguish themselves by their robust growth and form compact bushes with strikingly large, healthy looking foliage. The imposing five spotted flowers are of enormous size, original structure and unusual substance. The individual petals are exceedingly broad and cover each other in such a manner as to make the flowers appear almost double. The border of most every petal is conspicuously undulated and curled which grants the flowers a striking and very peculiar appearance entirely new to this class of plant. The beauty, brilliancy and richness of color being most striking; also very rare and new tones of red and

Brown are met with in these flowers. Mixed, per packet, 25c; large trade packet, 50c.

STOCKS

MAMMOTH EARLY BRANCHING NICE—This improved variety is now quite generally recognized as the most valuable of all stocks for cutting purposes and the most popular for general use. If sown early they come into flower as early as dwarf 10 week varieties; the flowers are larger and the branching habit renders them invaluable. We list below the choicest of the varieties, at 10c per packet:

Lilac
Belle of Naples, old rose
All colors mixed

Crimson King, brilliant crimson
Almond Blossom, white tinted carmine
Light Blue

ASTER

Giants of California

ASTERS BODGER'S IMPROVED GIANTS OF CALIFORNIA

The Horticultural Trade Journal of London, England, quotes the following on Giants of California: "Bodger's California Strain of Asters is ideal for growers of cut flowers; the flowers measure up to 6 inches across packed with broad petals and maybe grown with stems 30 inches long. It is truly an aristocrat amongst Asters, vying with well known chrysanthemums in size of flower and length of stem." Our mixture is made up from the best colors, including peach blossom, light blue, light purple, deep rose, dark

blue and white. Per pkg., 25c; the large trade packet, 50c.

Giant Dahlia Flowered Zinnia

DAHLIA FLOWERED ZINNIAS

The very robust plants, growing from 3 to 4 feet high, produce an abundance of 4 to 5-inch flowers resembling Dahlias of the decorative type. They are borne on strong stalks clear of the foliage, making them very desirable for garden decoration as well as for cut flowers.

BUTTERCUP—A rare shade of deep creamy yellow.

DREAM—A fine deep lavender turning to purple. A new fine color.

EXQUISITE—By far the most pleasing color in our collection. A lovely Tyrian rose color.

ORIOLE—Mammoth blooms of deep orange and gold bicolor.

METEOR—A rich glowing red. The darkest of all the red shades.

POLAR BEAR—The best white yet seen in Zinnias.

MIXED. The above and other varieties mixed.

Per pkt., 20c; one pkt. each of six varieties for \$1.00.

10,000 New Orders

1930 marks the forty-first year that I have been sending my little catalog to my garden friends the world over. I believe the values offered below are unusual and so attractive that you who receive this book **WILL SEND ME YOUR ENTIRE ORDER.**

All seeds are of 1929 and just "rarin to grow." The Boston ferns are lovely and I am proud of them as I have taken special pains to start them right. At the end of one year they should look just like the cut on the inside front cover. The Gladioli bulbs are good healthy ones and as this is written we have just finished digging them and storing them in our cellars. The Spruce have been growing in my garden for four years and are very attractive.

I acknowledge gratefully the letters of encouragement and good wishes that you sent in last season. I wish also to thank you in advance for your kind orders and should anything prove in any way unsatisfactory be sure to write me full details at once.

Good luck with your 1930 garden!
Nov. 1, 1929.

NOVELTIES FOR 1929

1. LARKSPUR-LaFRANCE.

This new and outstanding variety is without question the culmination of beauty in the stock-flowered Larkspurs. The flowers are of a pleasing salmon-pink and the variety is much more vigorous and taller-growing than other light shades on the market today. The large well formed double flowers, well placed on the long stems to set off its attractiveness, present a beautiful appearance which has won it instant recognition from the most severe critics. Your 1930 garden will not be complete without this striking and popular annual. Our supply of seed is limited. Please order early. Trial package 20c; 2 for 35c.

2. SCABIOSA COLUMBARIA.

This is the South African form of the European Scabiosa. It can be briefly described as a hardy low growing perennial with fine light green foliage, some of the flowers measuring from two to two and one-half inches across with short compost petals, borne on long, slender, but strong stems. Valuable as a florist's cut flower. We offer this in two favorite colors—pink and lavender.

We consider Columbaria a valuable addition to the perennial list and urge you to try at least one package of each color. We have brought the price down within reach of all. Packet 15c.

3. ESCHSCHOLTZIA RAMONA.

A new California Poppy. Among the fancy varieties introduced during recent years, Ramona, stands out as a distinct and very charming type. The color is a pale but glittering coppery gold with pink shadings, and very pleasing to the eye. It is a frilled type which gives it the appearance of a semi-double. This usually attractive novelty should be included in every collection. Generous package 20c.

4. DELPHINIUM—EMMA V. WHITE'S HOLLYHOCK STRAIN.

This striking type is the result of several years of painstaking re-selecting by our plant hybridizer and is a fine mixture of all light shades, pale clear blue predominating. The flowers are large, truly double, well placed on long pyramidal spikes, their sturdy growth and appearance reminding one of a hollyhock. To those of you who wish a select strain of improved Delphinium for your perennial garden, we highly recommend it. Package 15c.

5. PETUNIA—NEW DWARF CALIFORNIA GIANTS.

By far the best strain of Giant Petunias for pot culture and for window boxes. We do not hesitate in recommending it and in saying that it is the most compact Giant Petunia with the largest and best formed flowers of any variety in existence. Considering that our actual growing costs average over \$600.00 per pound, we feel that we have priced this very reasonable. It is an exceptional strain. Standard size pkt., 30c.

6. INCARVILLEA-VARIABILIS.

A brand new perennial which if planted early in the Spring can be handled as an annual. Valuable for filling and border work and produces a good showing of medium sized, attractive trumpet shaped flowers the entire summer. Colors range from yellow and white to deep pink, with many shades of pink in the collection. A real valuable addition to the perennial border. Packet 25c.

If you order from our catalog in the amount of \$3.00 or more and your order is post-marked on or before February 1st, 1930, we will give you one package free. Please ask for it on your order.

NOVELTIES INTRODUCED IN 1928

1. NEW IMPERIAL JAPANESE SNAPDRAGONS (Giants).

Every year sees new development in this wonderful family of flowers. This new Imperial far surpasses anything yet introduced. The plants are very robust, forming spikes of beauty from 3 to 4½ feet tall. The flowers themselves are placed closely on the stems. All of loveliest and softest shades are found in the flowers. They are as easily grown from seed as any other Snapdragon. They must be staked for success. For cutting, these Snapdragons are unsurpassed.

APPLE BLOSSOM—Rosy pink, golden yellow lip.

BUNCH OF LILAC—Lilacy purple.

GOLDEN QUEEN—Deep yellow.

PURPLE KING—Deep glowing purple.

SNOWFLAKE—Pure white, yellow tube.

WALLFLOWER—Brownish orange, copper red.

MIXED—All colors.

Per pkt., 15c; one pkt. each of six varieties for 75c.

2. CENTAUREA CYANUS DOUBLE MINIATA.

A great improvement over the old-fashioned Bachelor's Button. Color is a brick red. Easily grown from seed, and it usually reseeds itself from year to year. Try these. Pkt. 10c.

3. SCABIOSA MAMMOTH FLOWERING PEACHBLOSSOM.

"Highly Commended" by the Royal Horticultural Society of Great Britain. A beautiful shade of Peach Blossom Pink, large size and long stems. An excellent cut flower. Pkt. 20c.

4. GIANT IMPROVED RANUNCULUS.

A truly wonderful new type. It is very strong and vigorous in habit with stems of blooms 18 inches to 2 feet in height, each flower very large, generally 3 to 4 inches in diameter, while the giant Florentine strain has flowers 4 to 5 inches in diameter. The very double flowers have most varied colors—white, shades of yellow, deep mauve, many shades of pink, rose, and crimson, with bronzy shades, some blotched and many picotee edged. Sow thinly in pans in good turfy loam in early spring. Seedlings will generally bloom the first year, but will be at their best the second year, grown out of doors from roots formed the first year. Our mixture includes seeds of the expensive Florentine strain. Per pkt., 25c.

5. NEW SNAPDRAGON—COPPER KING.

An excellent specimen of this grand family of flowers. Color is a velvety copper scarlet. Large pkg. 15c.

FERNOLA—Restores failing ferns and plants. Per pkg., 13c; 2 for 25c.

6. DOUBLE BACHELOR BUTTONS (*Centaurea Cyanus*.)

The Bachelor Button is one of the most popular annual summer flowers. It is easily grown from seed and it usually reseeds itself year after year. You must try these because the flowers are large and double; a great improvement over the old-fashioned variety.

DOUBLE MINIATA—brick red; **DOUBLE ALBA**—white; **DOUBLE ATROPURPUREA**—purple; **DOUBLE MAUVE**; **DOUBLE BLUE**; **DOUBLE ROSE**.

Per pkt., 10c; one pkt. each of six varieties, 49c.

7. PERENNIAL SCABIOSA CAUCASICA PERFECTA.

This is a very handsome perennial forming dense, spreading plants 2 or 3 feet tall. The flowers are 3 to 4 inches across of a beautiful lilac-blue shading to a deep blue and are borne on stalks $1\frac{1}{2}$ to 2 feet long. Grows in any good garden soil and produces flowers from early summer to frost. Per pkt., 15c; 2 for 25c.

8. DOUBLE ORANGE CALIFORNIA POPPY—*Eschscholtzia Crocea* Flora Plena.

Very fine double large orange flowers, almost like a Marechal Neil Rose, very select stock. The long stems make it splendid for cutting. Per pkt., 15c; 2 for 25c.

9. DELPHINIUM CARDINALE (Red Perennial Larkspur).

An unusual Delphinium growing 3 feet high. The orchid-like flowers are a brilliant scarlet in color. One of the most brilliant and effective varieties. Per pkt., 20c.

10. SANVITALIA PROCUMBENS (Double).

This little known flowering plant is a beautiful gem for rockeries, borders, beds., etc. It creates a sensation wherever seen. An annual of dwarf compact growth with showy bright yellow double flowers with jet black centers. In bloom all summer. Sow seed thinly in rows outdoors when maples are coming into leaf or start indoors in March. Per pkt., 15c; 2 for 25c.

11. CYNOGLOSSUM COELESTINUM BLUE GEM (Hound's Tongue).

A very beautiful annual with sky-blue cup-shaped flowers. The plant is of compact growth resembling the Forget-me-not. It blooms all summer. No special care is required to create attractive beds or borders with it. Sow in April or May, covering with $\frac{1}{4}$ inch of fine soil. Per pkt., 15c; 2 for 25c.

12. LEPTOSYNE STILLMANI.

This lovely annual plant has huge daisy-like flowers of a golden yellow color. It might be called a mammoth Cosmos. They are useful for cutting as they are borne on long stems on plants which grow about 20 inches tall. For extra early flowering the seed should be started during March. If sown in the open in April, they will flower in July. If sown in July a fine display may be had in late fall. Per pkt., 15c; 2 for 25c.

13. CALENDULA, ORANGE KING (True Strain).

Double, dark orange red, dark center, a very select strain grown with greatest care for our customers. The plants in the open ground attain a growth of 18 inches high and produce magnificent blossoms $3\frac{1}{4}$ inches in diameter. Per pkt., 10c; 3 for 25c.

NEW SUPERB MAMMOTH BLOTCHED GIANT PANSIES

By far the most beautiful, most striking Pansy we have ever offered. The plants are of very robust growth with exceptionally vigorous foliage. Produces five-spotted flowers of enormous size on long, graceful stalks. Individual petals are exceedingly broad and cover each other in a manner which makes the flowers appear double. The border of nearly every petal is undulated and curled, making an appearance entirely new to the pansy family.

Most noticeable of all in this wonderful strain is the brilliancy and richness of color. Mixture contains many different colors including some entirely new shades of red and brown. Our quantity of seed is limited, so would advise early selection. Order some of these seeds this year and your Pansy Garden will be the talk of the town.

Trial pkt., 25c; large trade pkt., 40c; $\frac{1}{8}$ oz., 2.00.

Last year I sent to you for Pansy seed and when they came I believe every seed came up and such Pansies. I had some 3 in. across and $9\frac{1}{2}$ in. stems. They were the most beautiful I ever raised and I have had my pansy bed for thirty years.

PANSIES

BEDDING PANSIES (Introduced in 1917). This handsome class of pansies is noted for its graceful compact habit, its extreme abundance of flowers and its very large duration of flowers. For bedding, edgings, etc., this grand novelty cannot be strongly enough recommended. Per packet, 10c; 3 packets, 25c.

FINEST MIXED PANSIES. A splendid mixture, including all the best bedding varieties, together with numberless other shades and combinations, a rare mixture. Pkt., 100 seeds, 5c; trade pkt. (1,000 seeds), for 30c; $\frac{1}{4}$ oz., \$1.00.

DANISH BEAUTIES. Remarkably beautiful new strain of Pansies in mixture, composed of rich self-colors and large flowers with curled petals. A bed of this class creates a peculiarly bright and light appearance. Pkt., 100 seeds, 10c; trade pkt., 50c; $\frac{1}{4}$ oz., \$1.00.

COLLECTION, No. 113. One packet each of Giant Exhibit, Mammoth Blotched and Danish Beauty Pansies, 30c.

Giant Pansy.

SWEET SCENTED PANSIES. Viola Cornuta or Tufted Pansy. The latest fad in parks and gardens. They are a cross between the pansy and the violet, and have the delightful perfume of the latter with blossoms more like the pansy, only much smaller. Plant them in masses and they will cover the beds with sheets of bloom throughout the season. Mixed. Pkt., 100 seeds, 6c; $\frac{1}{4}$ oz., 45c.

CLIMBING VINES AND FLOWERS

ALLEGHENY VINE OR MOUNTAIN FRINGE

ADLUMIA CIRRHOSA. A beautiful hardy climber, very desirable for covering trellises, stumps of trees, fences, etc. While an annual it reseeds itself from year to year and might well be considered a perennial. Beautiful soft foliage quite similar to Maidenhair Fern. Pretty flesh-colored and pink flowers resembling the Bleeding Heart. These should grow and blossom the first year from seed. Pkt., 15c.

CYPRESS VINE

A beautiful climber with delicate feathery dark green foliage, bearing bright velvety star-shaped flowers in scarlet and white. Very desirable for small ornamental trellises or wire supports, and may be grown in window boxes. Mixed. 30 seeds, 8c.

CANARY BIRD FLOWER

A very excellent climber for the porch or trellis; the growth is very rapid and the foliage very pretty. Bears curiously shaped canary yellow flowers with similar likeness to a bird with outstretched wings. We recommend this as one of the most desirable vines that can be grown from seed. Annual. Pkt., 20 seeds, 8c; $\frac{1}{4}$ oz., 30c.

THUMBERGIA — BLACK EYED SUSANS

This fine, slender growing climber from Africa is exceptionally useful for covering wire trellises and also for vases in the garden or house. They are very attractive if grown as a trailer on the ground. The colors are white, yellow and orange, and of each color there is a variety with white eyes and also black eyes—the latter being called "Black-eyed Susans." Blooms continuously from the first approach of summer until frost. Sow seeds indoors in March and outdoors in May. Pkt., 10c $\frac{1}{4}$ oz., 50c.

CARDINAL CLIMBER

We feel that everyone who has a flower garden should have this favorite climber. The vine quickly reaches a height of 30 feet or more. The blossoms are about $1\frac{1}{2}$ inches in diameter, in clusters of five to seven blooms each, and as the name indicates, are of a rich cardinal red. It likes sun and good soil, and develops to perfection in a sandy loam soil. If started in the open do not sow until warm weather, as the seed will rot in cold, wet ground. File each seed, or slightly cut through the outer covering, soak in lukewarm water over night, and sow in a warm place. Pkt., 10 seeds, 12c; $\frac{1}{8}$ oz., 50c.

JAPANESE KUDZU VINE (*Pueraria Thumbergiana*)

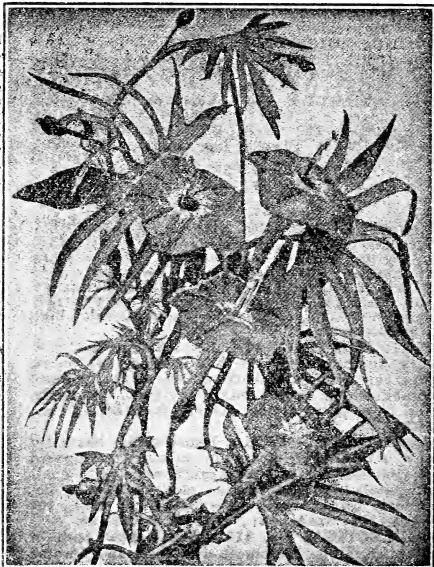

This remarkable vine, often called "Jack-in-the-Beanstalk," will grow anywhere in the best or poorest soil. The growth is very rapid and it oftentimes reaches a height of 75 feet in one season. Fragrant purple flowers resembling a purple Wistaria; invaluable for covering porches, etc. Pkt., 15c; $\frac{1}{4}$ oz., 45c; $\frac{1}{2}$ oz., 60c.

MAURANDIA VINE

Graceful, delicate annual from Mexico. Fine for baskets and vases in sheltered positions, both the flowers and foliage being very beautiful. Our mixture consists of blue, white and mauve. Start indoors during March and set out when the weather is quite warm. Thrives in a rich, sandy soil. Pkt., 15c.

WILD CUCUMBER VINE

Makes the most massive covering. It is an old friend with people in the country and it is undoubtedly the best climber for covering verandas, trellises, etc., never suffering from the heat, but retaining its fresh and lively green color throughout the whole summer, whether hot or cold, wet or dry, never infested with insects, and very profuse in bloom. It will sow itself and come up every year in the same place. Pkt., 5c; $\frac{1}{4}$ oz., 20c.

Cardinal Climber

Novelties of Other Years

PANSY FIRE KING

One of the finest pansies produced in recent years. Color a fiery red. Vigorous growth and produces a flower of rare merit. Packet, 15c.

GIANT PINK MOONFLOWER. Of marvelous growth, plants bloom nearly as early as the Morning Glory. Remain open from 4 o'clock until noon the next day. Packet, 8c.

SCARLET RUNNER

Highly ornamental as well as useful, both in foliage and flower and as pretty a climber as many of its more aristocratic neighbors, and the beans are good for the table if one wishes. Pkt., 12 seeds, 5c; oz., 10c.

MIMULUS (Monkey Flower)

Showy, profuse, flowering plants, with Gloxinia-like blossoms, fine for winter garden, or for moist, shady positions. A mixture of *Tigrinus*, or true Monkey Flower, and *Musk Plant*, noted for its fragrant foliage. Pkt., 500 seeds, 5c; $\frac{1}{8}$ oz., 24c.

I have so much faith in your seed that I don't want to try any other and my mother always used your seed when she lived, too.

Respectfully, Mrs. Bretts, 923 Circle Ave., Forest Park. Ill

NEW RED SUNFLOWERS

A really unique Sunflower. Plants are from 5 to 8 feet high and much branched, with flower heads varying greatly in size and color. Some produce rich chestnut-red blooms, some full rose, some red, tipped yellow, and others will be zoned with red, all very striking, though, as in most novelties, not every seed will come true. Pkt., 10c.

NEW RAINBOW SUNFLOWER. Obtained by blending three distinct types. The colors run through all shades of yellow in many combinations with brilliant reds and bronzes. A row will make a gorgeous sight in your garden. Pkt., 15 seeds, 8c.

MIGNONETTE

MACHET WHITE PEARL. The nearest to a real white that can be produced in a mignonette. Pkt., 10c; $\frac{1}{8}$ oz., 25c.

EXHIBITION PANSIES

Especially selected. We are offering this season, in this carefully selected strain from only the largest and most perfect flowers the best Pansy strain we have ever sold. It includes our attractive frilled Masterpiece, the many unusual shades of Madame Perret, or Red Pansies, and all our other charming named varieties of the Giant-flowering sorts, and is unexcelled in size, variety and beauty of bloom.

"Cannon City, Colo., June 1, 1920.

My pansy plants from your seeds are producing the most wonderful blossoms I have ever seen.

Miss A. G.

Pkt., 100 seeds, 12c; trade pkt. (about 1,000 seeds), 75c; $\frac{1}{4}$ oz., \$2.25; oz., \$8.00.

FERNOLA—THE FINEST PLANT FOOD FOR FERNS AND HOUSE PLANTS.

PKG. 13c. 2 FOR 25c POSTPAID.

Fernola Fertilizing Works,
St. Paul, Minn., 4-2-24,
Minneapolis, Minn.

Gentlemen:

It is wonderful how plants thrive after being treated with Fernola.

I will be pleased to answer any inquiry regarding my experience and success with Fernola.

Very truly yours,

L. R. WELLIVER,
Northwestern Bell Telephone Co.,
St. Paul, Minn.

ALYSSUM, "CARPET OF SNOW." A new dwarf Alyssum, growing only 2 or 3 inches high, and flowering so profusely as to make a perfect carpet of white throughout the season. Splendid for pots and edgings. Pkt., 300 seeds, 10c; $\frac{1}{4}$ oz., 10c.

ABUTILON, NEW HYBRID

FLOWERING MAPLE. A choice selection from newest hybrid varieties, in pure white, straw, yellow, rose, crimson and scarlet shades, with beautiful veins and markings. They bloom soon from seed and often give new and charming kinds. 3 feet. Mixed. Pkt., 30 seeds, 10c; $\frac{1}{4}$ oz., 50c.

SWEET PEA

EARLY GRENADIER. This is the most brilliant sweet pea yet introduced. A true early, everblooming type, of robust habit. The color may be best described as a glowing poppy scarlet; synonymous with our late flowering variety The Cardinal. Early Grenadier was awarded a Certificate of Merit by The Commercial Flower Growers of Chicago. Pkt., 35c; $\frac{1}{4}$ oz., 1.00; oz., \$1.90.

Delphinium

LARKSPUR

DOUBLE STOCK FLOWERED TALL "EXQUISITE." The color of this charming new Larkspur is a beautiful soft pink and will be highly prized by seedsmen who cater to the florist's trade. Pkt., 10c; $\frac{1}{4}$ oz., 65c; oz., \$2.40.

PHYSALIS

(Chinese Lantern Plant)

Highly ornamental. The plant produces white flowers, which are followed by large, inflated husks, much the shape of Chinese lanterns, at first a green color, changing to brightest scarlet. Pkt., 10c; 1-16 oz., 30c.

CANDYTUFT

Price per pkt., 5c; 3 pkts., 12c.
GIANT HYACINTH. Listed also as Rocket and Empress. Each plant has from four to nine branches, crowned with a bunch of magnificent white flower spikes, sometimes 6 inches long. Annual, 8 inches. Pkt., 200 seeds, $\frac{1}{8}$ oz., 15c.

ANCHUSA

CAPE FORGET-ME-NOT. A rare annual of great beauty. Grows two feet high. It will thrive in a shady, out-of-the-way place where scarcely anything else will grow. It resembles a large beautiful Forget-Me-Not of deep blue color. Blooms all summer. Pkt., 10c; 1-16 oz., 15c.

ORIGER EARLY!

FREE Boston Fern with early orders. See inside front cover.

DELPHINIUM

Perennial Larkspur

No perennial border is complete without the stately Delphinium, or Larkspur, justly one of the most popular Perennials. Our mixture contains the Formosum, or Bee Larkspur, delicate Chinese varieties (fine for cutting) and the best hybrid varieties from the famous Kelway strain. If not allowed to seed they bloom almost continually. Pkt., 65 seeds, 10c; 1-16 oz., 40c.

PERENNIAL LARKSPUR. Light Blue Shades, hybrids of the beautiful Belladonna Larkspur. Mixed.

BELLAMOSA. Very dark blue.

GOLD MEDAL HYBRIDS. Fine giant flowering mixture.

How to make a Rock Garden

HOW TO MAKE A ROCK GARDEN AND LILY POOL THIS YEAR

You may think this will be a very difficult task but there are a few helps that will make it very easy.

To make your lily pool: Sink three ordinary tubs in the ground in the shape of a triangle. Put flowers around them and in the middle where the three tubs come together put some tall plant such as a canna.

Put some rocks and boulders around

the space near the tubs and plant in between them. Do not attempt to place the rocks as this gives your garden a "stiff" look. Any kind of rock will do and most any seed will do well in the garden. If you have your rock garden on a slope be sure to pack the dirt around your plants well so as to prevent the rain washing them out.

Things to Plant: Around the pool, Sanvitalia Procumbens, Lilac Queen Alyssum, Sweet Alyssum, and Dwarf Phlox.

HOW TO MAKE A ROCK GARDEN

(Continued from page 14)

In the Rock Garden. Plant annuals now and also plant perennials so that next year you will have the perennial plants when the annuals will be gone.

Annuals: Stocks, Daisy, Sweet Alysium, Verbena, Portulaca, Blue Lace Flower, Schizanthus, California Poppy, and Dwarf Petunias.

Perennials: Delphinium, Canterbury Bells, Perennial Flax, Anchusa, Achillea, Agrostemma, Arabis, Lychnis, Forget-me-not, Platycodon, and Anemone.

It is very important to form some kind of a background either with tall plants or planting shrubbery as this gives your garden a natural appearance.

CELOSIA (Cockscomb)

Pkt., 5c

CHINESE WOOL FLOWER. A new and unique Feathered Cockscomb. It grows 2 to 3 feet high, each branch covered with a great head of rich crimson flowers having the appearance of soft, silky wool. Very effective in beds and borders, splendid for cutting as it lasts many days, and dried it is a valuable addition to the winter bouquet. It blooms continuously until cut off by frosts. A much longer blooming period is obtained by starting seed indoors. Do not sow outside until settled warm weather. Pkt., 40 seeds; 1-16 oz., 25c.

LOBELIA

Much used for edgings; effective also for the hanging basket, rockery or porch box. The standard blue variety for edgings and vases. Pkt., 500 seeds, 8c; 1-16 oz., 20c.

CRYSTAL PALACE. A dwarf compact growing plant about six inches high. Purplish foliage with flowers of a deep violet blue. Fine for edgings.

DIDISCUS

QUEEN ANNE'S BLUE LACE FLOWER. This dainty and pretty flower has in the past couple of years become very popular and is found in the florists' shops everywhere, but even so it is easily grown and every one can have some. It somewhat resembles the Scabiosa, but is of a very peculiar shade of blue, a shade that is quite the thing these days. It is an annual and blooms profusely from July to November or a heavy frost cuts it down. Its exquisite, lacy-like flowers make it wonderful for cutting. The plants grow to a height of about eighteen inches and are literally covered with flowers most of the time. Pkt., 10c; ¼ oz., 50c; oz., \$1.60.

MARIGOLDS

Pkt., 5c.

TALL DOUBLE AFRICAN—ORANGE BALL. Large, perfect double-quilled flowers of a rich deep golden orange color; the finest of all and very showy. ¼ oz., 60c.

SCHIZANTHUS (Butterfly Flower)

It is a quick germinating annual and is soon in bloom after planting. Its flowers are airy and of the lighter shades of pink, yellow and lavenders. It is good for border work, and in front of tall flowers. Make good pot plants from seed if sown in the fall. Pkt., 10c; ¼ oz., 15c.

SEND US YOUR ENTIRE ORDER.

VERBENA (Mammoth)

LUCIFER. We can recommend this as one of the most brilliant scarlet verbenas we have ever seen and the display of the variety in the Minneapolis parks the past summer was wonderful. It is an improvement over the Defiance, which in itself is an excellent variety, and it has no eye, thus making it a brilliant splotch of red. Pkt., 10c; ¼ oz., 75c; oz., \$2.75.

TRITOMA (Red Hot Poker Plant)

The **FLAMEFLOWER.** Fine for bedding or for the conservatory. A plant with gorgeous scarlet spikes, rivaling the Canna in brilliancy and the Gladiolus as a cut flower. They bloom from June until November, and are hardy, with protection, in most sections. New mixed hybrids. Pkt., 40 seeds, 8c; 1-16 oz., 25c.

PETUNIA

GIANTS OF CALIFORNIA, DOUBLE MIXED. Mrs. Wadsworth, a New York customer, says: "The Double Petunias were the handsomest I ever saw. I had 15 varieties and took first prize at our fair." Our mixture contains the very best strains of two expert growers who have devoted years to their development. Not all come double, but the seed will give a good percentage of deeply fringed double flowers in the brightest colors and most beautiful tints. Pkt., 75 seeds, 25c; 500 seeds, \$1.00.

GIANTS OF CALIFORNIA, SINGLE MIXED. This mixture will give as handsome Petunias as any on the market. Some will measure four or five inches across, the corollas being ruffled, fluted, or fringed, with extremely deep and large open throats. They appear in many shades and combinations, striped, blotched or solid in color. Splendid mixed. Pkt., 100 seeds, 20c; 500 seeds, 50c.

BALCONY QUEEN. Large flowering or Grandiflora, rich dark velvety purple, one of the best plants for window boxes or group planting. Use white flowers with the Balcony Queen for best effect in window box. Pkt., 25c; 500 seeds, 90c.

"FLUFFY RUFFLES." A superb strain of single Petunias, the most deeply ruffled and fluted of all. Exceedingly delicate and graceful. Mixed. Pkt., 100 seeds, 20c; 500 seeds, 65c. See also page 27.

YELLOW. Lovely canary and other yellows.

BLACK PRINCE. Maroon.

IMPROVED HALF DWARF MIXED. Mixed or separate colors. Pkt., 5c.

COLLECTION. One full packet each of seven colors, 55c.

Zinnia, Double Giant, Buttercup

This is a great improvement on any yellow of the giant class, being of a rich buttercup shade of yellow, and holds its color until the flowers commence to fade, when it changes to a deep cream color. Pkt., 15c; $\frac{1}{4}$ oz., 30c.

Mexican Zinnia

Very artistic for cutting and highly effective as an edging plant. 1 foot. Pkt., 50 seeds, 5c; $\frac{1}{4}$ oz., 25c.

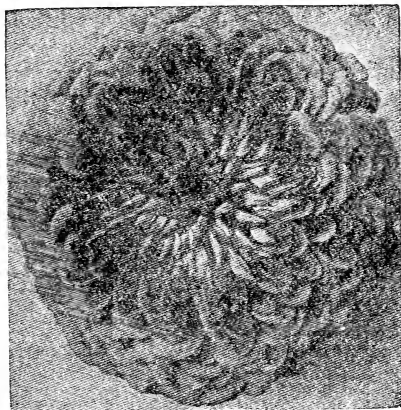

Liliput Zinnia

Finest mixed double. 12 inches. The plants form handsome little bushes; flowers very double, about the size of an English Daisy

Bloom all summer until killed by frost. Pkt., 5c; $\frac{1}{4}$ oz., 18c.

Giant Picotee Zinnia

A remarkable new and distinct class with beautiful double flowers in shades of orange, flesh, lemon, pink and cerise, each petal being distinctly tipped with various shades of dark, resembling the Picotee Carnations—most attractive and pleasing. All colors mixed. Pkt., 15 seeds, 10c.

Giant Zinnia

SOME CHOICE ZINNIAS

Giant Victory Quilled Zinnia

The petals are quilled and twisted with a pin-wheel effect in the center. The outside of the petals is of a copper-golden color and the under side shades of rose and lilac. Pkt., 15c.

Red Riding Hood Zinnia

A little gem, covered throughout the season with small, intensely scarlet, very double flowers; highly effective for bedding. 1 foot. Pkt., 50 seeds, 5c; $\frac{1}{4}$ oz., 20c.

Curled and Crested

The flowers are large, the petals being twisted and curved into most graceful forms. Mixture of all colors characteristic of the Zinnia. Pkt., 5c; $\frac{1}{4}$ oz., 20c.

Emma V. White's Asters

We specialize in the better varieties of Asters and we have built up a reputation for our Aster seeds that is the envy of seedsmen and florists. There are few if any flowers that make a better show than this popular garden annual. You should make several sowings of the early, mid-season and later varieties so as to have continuity of bloom. Ask for our "Culture of Flowers" when you order.

Emma V. White Co's.

DOUBLE CHRYSANTHEMUM FLOWERED ASTER

Without question, this is one of the finest and grandest Asters ever produced. The flowers of this beautiful variety, which may be cut with stalks from $1\frac{1}{2}$ to 2 feet in length, measure up to 8 inches across, being densely double, and greatly resembling a large-flowering chrysanthemum. It is unequalled as a cut flower and wholly effective for tall beds and groups. Seed is grown for us on contract in Germany by one of the foremost growers of that country.

Colors: Deep Purple, Light Blue, Rose, Peach Blossom, Dark Purple, White, Mixed. Each, per pkt., 25c; 2 for 40c.

The Asters I received from you last year were the best I have ever had, altho we had such a dry year.

Mrs. Jake Anderson,
Edgeley, N. D.

ASTER

IMPROVED EARLY WONDER. These are the earliest blooming of the Asters, commencing to bloom the last of June. Flowers are large, full and well formed and the plants are of upright habit of the Comet type.

Rose, Light Blue, Lavender, White, Dark Blue, Mixed, per packet, 8c.

Dear Miss White: "April 4, 1929.

Have been buying Aster seed from you for years. My Asters are wonderfully beautiful and admired by all who see them.

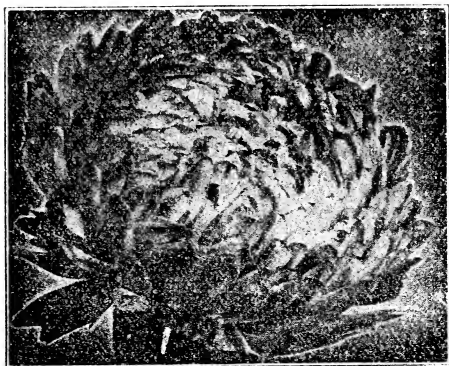

Mrs. Harley Hoopes,
Fairfield, Ia."

Dear Madam: "April 15th, 1929.

I have always enjoyed selecting seeds from your catalog as I find so many different plants that we do not get in the stores. I have been buying seeds and also plants from you for 18 years and no seeds ever failed to grow.

Mrs. Anna Christenson,
2908 Howe St.,
Racine, Wis."

ASTERS

Enchantress Aster

ENCHANTRESS ASTERS. A splendid Aster. The plants are upright in habit, bearing immensely large flowers on long, strong stems. The color is soft pink, like that of the popular Pink Enchantress Carnation. The blooming period is an advantage, too, as they come between the mid-season and the late-blooming sorts. Pkt., 75 seeds, 8c; $\frac{1}{4}$ oz., 60c.

PEERLESS ASTERS. Said by experts to be the best shell-pink of its type. It is a cross between the pink Crego and late-branching shell-pink, but is more closely related to the latter class in form, color and season of flowering. They bear immense flowers, 4 and 5 inches across, of a beautiful rose or shell-pink color. Pkt., 60 seeds, 8c; $\frac{1}{8}$ oz., 40c.

GIANT CREGO ASTER. Pronounced by many the best Comet, or Os-trich Plume strain. The blossoms measure 4 to 5 inches, their graceful Chrysanthemum effect being heightened by the much twisted petals. Pkt., 100 seeds, 5c; $\frac{1}{4}$ oz., 40c. Lavender, purple, white, rose, mixed.

HEART OF FRANCE. Claimed to be the best red aster ever introduced. Opens red and retains its remarkable beauty to the very end. Plants large and robust, branching type, long stems with few laterals. Flowers large and full, with never a trace of hollow center. Mid-season. Pkt., 15c; $\frac{1}{4}$ oz., 75c.

LATE BRANCHING IMPROVED. This magnificent aster, an improved strain of Semple's branching, produces large double flowers borne on long, stiff stems and prized by florists for cut flowers. Excellent bedder. Use with Queen of the Market and Comet types and have a succession of beautiful asters from mid-summer to first frost. Pkt., 150 seeds, 8c; 3 for 20c; $\frac{1}{4}$ oz., 50c.

White, rose, crimson, pink, purple, lavender, mixed.

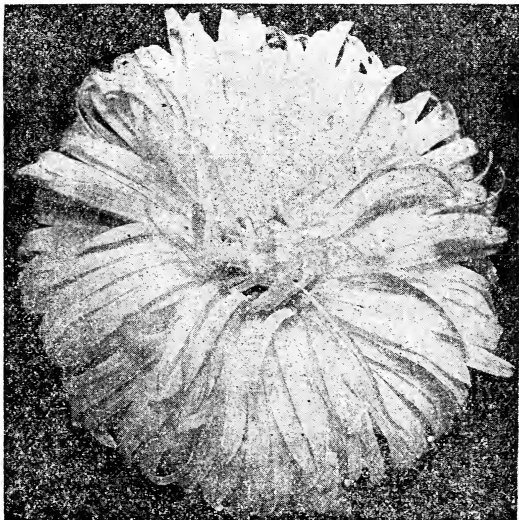

Collection, No. 906—One packet each of above separate colors, 40c.

AMERICAN BEAUTY. Similar in type and growth to the Late Branching Asters, large, full flowers with incurve petals and stout stems from 15 to 24 inches in length and longer flowering than any other aster. Should be planted early to give it a longer season of growth and it will continue blooming until killed by the frost. Especially desirable for cut flowers and recommended for florists' use.

Rose, pkt., 10c; Lavender, pkt., 15c; Purple, pkt., 10c; September Pink, pkt., 15c; $\frac{1}{4}$ oz., \$1.00. White or Mixed, pkt., 10c.

Collection No. 903—One packet each, four colors American Beauty Aster, 40c.

BALL'S WHITE FLOWER is a sphere of pure white petals, borne on a long, stout stem, a mid-season variety. Pkt., 15c; $\frac{1}{4}$ oz., 50c.

American Beauty

ASTERS

QUEEN OF THE MARKET. If you want asters at the earliest possible date, this should be in your purchase. It comes from 2 to 4 weeks earlier than any other sort and is besides a handsome flower. Pkt., 100 seeds, 5c; 3 pkts., 12c; $\frac{1}{4}$ oz., 40c.

Crimson, blue, rose, lavender, mixed, pink, purple, white.

IMPERIAL DAYBREAK. Blossoms are very double and compact and have always been a favorite with florists, both because of their medium early-flowering period and for their own peculiar beauty. Pkt., 75 seeds, 8c; $\frac{1}{4}$ oz., 45c.

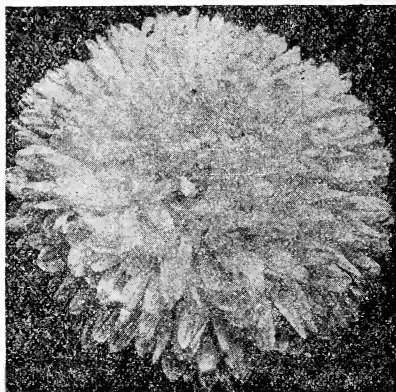

Purity Daybreak (pure white), Pink Daybreak, Lavender Daybreak, Salmon Pink Daybreak, mixed, all colors.

PEONY FLOWERED. One of the handsomest sorts, with very double, ball-like flowers, resembling a Peony or some of the new Chrysanthemums. Pkt., 100 seeds, 5c; $\frac{1}{4}$ oz., 30c.

Crimson, rose, white, blood red, dark blue, mixed.

GIANT COMET. A splendid new type of the Ostrich Plume Aster, with large Chrysanthemum-like flowers. Pkt., 50 seeds, 5c; $\frac{1}{4}$ oz., 50c.

Lavender, purple, white, rose, crimson, mixed.

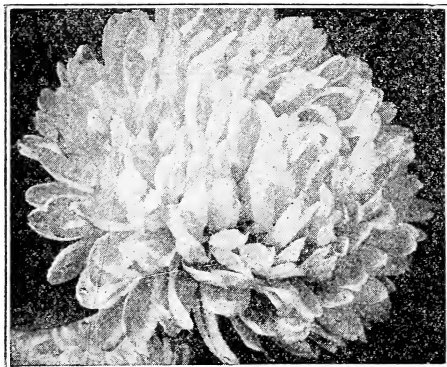

American Branching Aster

VICK'S CARDINAL. A dark red aster, splendid for bedding, making a brilliant show from early August till the close of the season. Used in a mass they are as handsome as a bed of geraniums. Pkt., 50 seeds, 5c; $\frac{1}{4}$ oz., 40c.

WHITE PERFECTION. In form it is like the Upright Branching, the plants being tall, with abundant flowers of exquisite shape and very double, the centers strongly whorled, and with long, strong stems, splendid for cutting. Pkt., 50 seeds, 8c; $\frac{1}{4}$ oz., 40c.

VICK'S LAVENDER GEM. The best Lavender Aster. Comet form and excelling all other Lavender Asters in its delicate shade. Pkt., 50 seeds, 5c; $\frac{1}{4}$ oz., 40c.

White Perfection Aster

LADY ROOSEVELT ASTER. This is an exceedingly mammoth Aster and is a rampant grower, producing immense flowers, 5 to 6 inches in diameter. The long, broad petals are curled, giving an appearance of a graceful chrysanthemum. Color of a deep rose-pink. Pkt., 75 seeds, 5c; $\frac{1}{4}$ oz., 35c.

CRIMSON GIANT. Dark blood crimson, of remarkable perfection of form and appearance, the flowers frequently measuring 5 inches across. Pkt., 75 seeds, 8c; $\frac{1}{4}$ oz., 50c.

KING ASTERS, QUILL TYPE. A distinct class, the long, narrow petals having somewhat the appearance of being quilled. Pkt., finest mixed, 75 seeds, 5c; $\frac{1}{4}$ oz., 30c.

SENSATION ASTER. This is the best brilliant red Aster that can be had. Pkt., 8c; $\frac{1}{4}$ oz., 50c.

EMMA V. WHITE'S SELECTED PERENNIAL PLANTS

COREOPSIS

The plants below will be excellent additions to your 1930 garden. Once established they will last forever and will increase in beauty with every season. Our plants are grown for us by an experienced grower who, in our estimation, produces some of the finest plants in America. Plants will be shipped on May 1st and no orders will be accepted after that time. No order will be filled for less than two plants. Prices on all

Perennial Plants: Any 2 plants, 50c; 3 for 70c; 6 plants for \$1.00.

GAILLARDIA

Mixed. Excellent specimens of this well known Blanket Flower. Bright showy yellow and red blooms. Two feet tall.

DELPHINIUM

Our mixture includes a wide range of colors including Belladonna, Bellamosa and Gold Medal Hybrids. Produces tall solid spikes of double blooms. Very showy.

PHLOX

One of the most showy and colorful of all summer flowers. Blooms from July to middle September. Our plants contain the finest and newest varieties.

COREOPSIS

One of the most popular hardy plants; the flowers are a rich golden and orange yellow of a beautiful graceful form and bloom.

HOLLYHOCK

A wonderful collection of all the best varieties. One of the best of the perennials. Good for hedge or background.

DIANTHUS (Pink)

Our mixture includes Maiden Pinks, Grass Pinks, Chinese Pinks and other varieties in a charming mixture. Good for borders, rock gardens and as specimen plants. Will supply a wonderful abundance of bloom.

SHASTA DAISY

Sturdy plants, free blooming and long stemmed. Glistening white blooms. Flowers during June and July. Unusually good plants.

BABY'S BREATH

Dainty small white blooms during August and September. Attractive and fine as a cut flower for bouquets. May be dried for winter bouquets.

GLADIOLI

Every flower lover should have at least 50 Gladioli bulbs in their garden. No flower known makes a more excellent one for cutting, not alone from the standpoint of a good keeper, but also for the fact that its numerous spikes make a most gorgeous spectacle. We have selected this year 20 of the best varieties in each color classification and have mixed them into special color mixtures for you. For example, in buying the light pink mixture, you will get the best varieties of flesh, salmon, coral, geranium and rose pink varieties. The same holds true of the other mixtures.
